

No TNA Left Behind

Two Great Ways to Become a CNA

During the pandemic, TNAs stepped in to fill the gap and bridge critical workforce staffing shortages across the country. The TNA waiver **expires on June 6** and facilities will no longer be able to employ TNAs as of **October 6**. But, their skills in delivering quality, compassionate care are still needed now more than ever! We are committed that no TNA will be left behind and have **two great ways to become a CNA**.

Hybrid Online Training

Flexible and convenient, CNAonline offers a hybrid learning experience with the classroom portion entirely online and clinical training performed at a provider facility or lab.

- E-book
- Audio book
- Practice tests
- Study guides

TNA to CNA Test Prep

This course prepares TNAs/PCAs for becoming certified/licensed Nurse Assistants in states that allow challenges to the certification/licensing test or that offer accelerating training pathways. This 30-hour course provides 24/7 access to:

- Q&A with licensed nurse instructors
- Quizzes
- Audio book
- Medical terminology
- Links to state competency skills
- FAQs

Current Availability:

Confirm that this course can be utilized in your state before purchasing.

Fee: \$300

Register: cnaonline.com/testprep

This program is an excellent refresher study guide for students experiencing significant delays in testing.

CNAonline and TNA to CNA Test Prep developed by Academic Platforms, LLC, in partnership with the American Health Care Association.
