## Newly Updated Resource for Caregivers Serving Residents with Memory Loss

The Validation method has been recognized worldwide as a reliable and effective approach to communicating with people experiencing memory loss and disorientation. Put into practice, it can relieve distress and confusion, promote dignity, and improve engagement. Recently updated in 2022, the fourth edition of [The Validation Breakthrough: Simple Techniques for Communicating with People with Alzheimer's and Other Dementias](#) explains the essential principles of Validation and offers tools for improving lives by focusing on the social and psychological needs of the person experiencing dementia.
