- Cross-cutting Themes
- Community Comments
- Ongoing Engagement:
MPATownHall@health.ny.gov

Governor Hochul signed an Executive Order on November 4, 2022 calling for the creation of a State Master Plan for Aging to...

Create a **blueprint of strategies** for government, the private sector, and non-profit sector to support older New Yorkers

Address challenges related to communication, coordination, caregiving, long-term financing, and innovative care

Coordinate all State policy and programs

With the goal of having all older New Yorkers "live **fulfilling lives**, in **good health**, with **freedom, dignity and independence** to **age in place for as long as possible**"

Why does New York need a Master Plan for Aging?

By 2030, 1 in 4 people in New York will be aged 60 years or over.

The Master Plan for Aging builds off our State's successes in healthy aging, emphasizing aging in place and improving the lived experience for all ages.

! NEW YORK STATE'S MASTER PLAN FOR AGING

**4.6
million**

There are 4.6 million New York residents 60 years and older who contribute to the economic, social and cultural vibrancy of our State.

! NEW YORK STATE'S MASTER PLAN FOR AGING

Our Master Plan for Aging recognizes their importance. It also ensures they can age in place with the independence, dignity, and respect they deserve.

All New Yorkers deserve a fair chance to live not only a long life, but also a healthy and vibrant one

New York is the first Age Friendly State in the Nation. The Department of Health and the State Office for Aging have together supported complementary missions of fostering policy, programs, and services that meet the needs of older New Yorkers and people with disabilities.

Master Plan's Bold Agenda

Factors that impact health
including transportation
and housing

Rising use of healthcare
services as people age

Medicaid and Medicare
funding

Healthcare workforce
challenges

Meaningful choice and
remaining in community

Family caregivers

Lay the foundation for change to the aging landscape for the long haul

- Integrated and age friendly community health systems
- Seamless system of care across settings
- Public-private partnerships to support aging in place
- Person-centered planning
- Fair pay and appropriate working conditions
- Increased access to information about services and supports
- Expanded availability of services

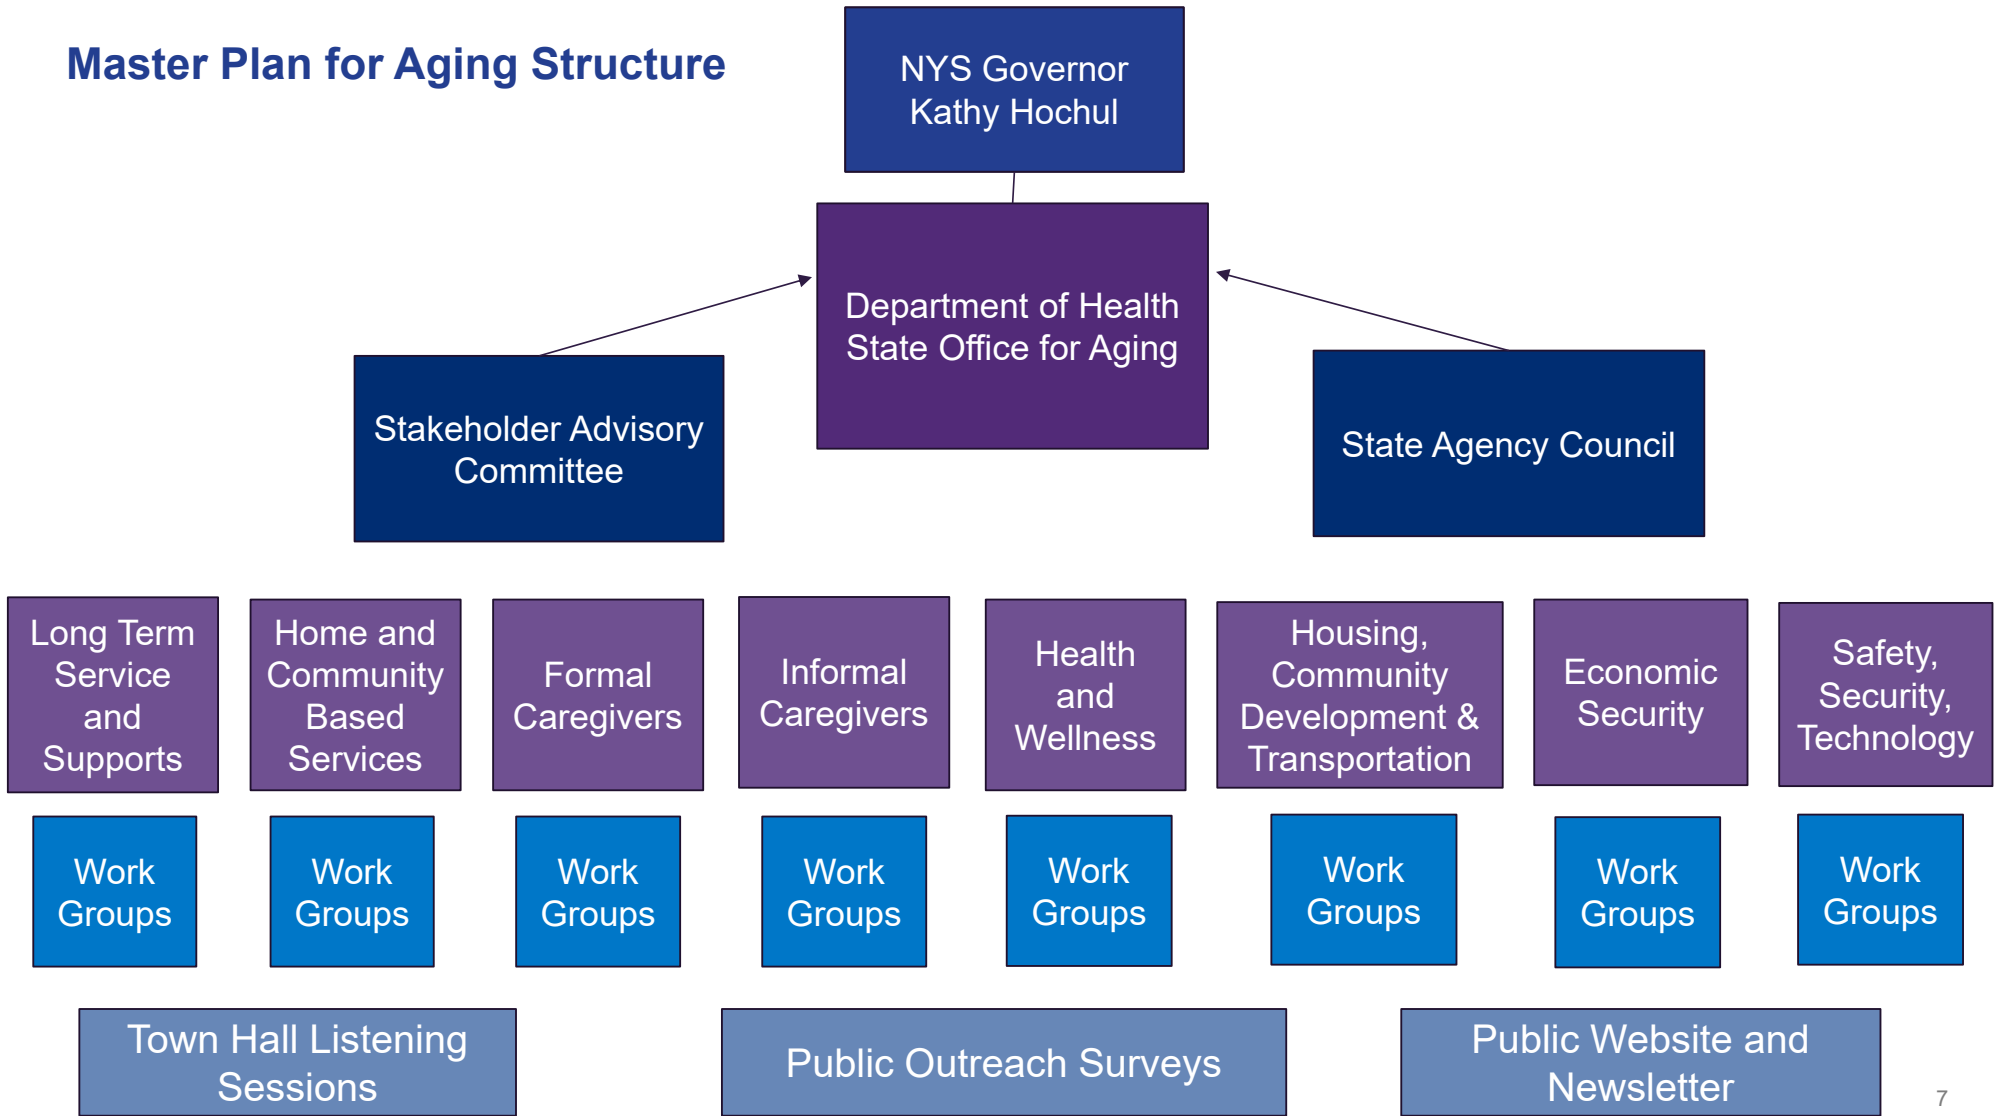

NEW YORK STATE'S MASTER PLAN FOR AGING

The Master Plan for Aging will ensure our State has a long-term care system that is accessible, effective, and affordable, while also recognizing the unique needs and value of all New Yorkers.

Master Plan for Aging Structure

Subcommittees

The following subcommittees have been created:

1. Long Term Services and Supports
2. Home and Community-Based Services
3. Informal Caregivers
4. Formal Caregivers
5. Health and Wellness
6. Housing, Community Development, and Transportation
7. Safety, Security, and Technology
8. Economic Security

Emerging and Cross-Cutting Themes

- Age friendly principles
- Ageism
- Diversity, equity, and inclusion
- Funding/payment mechanisms
- Geography
- Housing
- Person-centered models of care
- Sexual orientation and gender identity
- Social isolation
- Technology
- Training and education
- Transportation
- Workforce

Expected
Timeline for
Development
of Master Plan
for Aging

Community Comments

How can you help to develop the Master Plan?

Communities will have an opportunity to share input through:

- A Public Survey
- Town Hall Meetings
- Emails to MPATownHall@health.ny.gov
- MPA website: www.ny.gov/mpa

NEW YORK STATE'S MASTER PLAN FOR AGING

**“All New Yorkers
deserve to age
in their community
with dignity
and independence.”**

Governor Kathy Hochul
